- Converts MS Publisher 2002 through 2007
- Available for Macintosh or Windows
- Simple to install
- Quick & easy to use
- Swift return on investment

PRODUCT OVERVIEW

PUB2ID (Microsoft Publisher to Adobe InDesign) is a plug-in for Adobe InDesign. It provides a quick, easy and affordable method for you to migrate all your Microsoft Publisher content into new Adobe InDesign documents. The conversion is enabled with a single click using the InDesign File->Open menu. No more re-creating documents from scratch; PUB2ID gives you a big head-start.

PUB2ID translates the intricate details of the content within the Microsoft Publisher document and instantly re-creates it within InDesign. Items converted from Publisher include: page size, positioning, color models, fonts and styles, text attributes and tables, layers, word wrap, linked text boxes as well as automatic extraction of images embedded in the Publisher file.

The PUB2ID (Microsoft Publisher to Adobe InDesign) document conversion technology will save you countless hours of scanning, re-keying and formatting. This product converts and transforms files created with Microsoft Publisher into an Adobe InDesign file on either Macintosh or Windows platforms.
